

Antibacterial

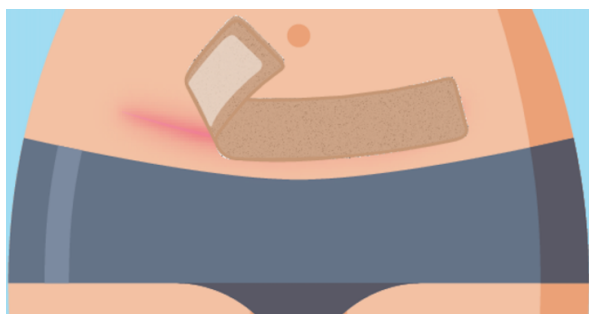

HYDROGUARD STRIPS

Advanced C-Section Care

Mama Strut Hydroguard Strips for old and new c-section scars are clinically proven to heal, calm inflammation and minimize pain & scarring.

HOW THEY WORK

- Flexible, breathable & decreases tension on wounds (one of the main causes of scarring)
- Creates the optimal antibacterial environment for healing & scar reduction
- Padded barrier protects from irritants & infection
- No need to wait until stitches are removed to use
- Can be used when infection is present
- Apply on dry incisions, wear up to 3 days before replacing with a fresh bandage
- Can be worn day & night, even in the shower

SOOTHES • PROTECTS • FLATTENS • FADES

WHAT THEY ARE

- 7 inch strips in packs of 1, 3 or 5
- 90% water in a gel base for powerful healing and scar reduction
- Latex-free, hypoallergenic, elastic polyurethane/synthetic rubber
- Easy off protective backing

Hydroguard Strips allow all c-section moms to heal properly. Each individual strip can be billed through insurance with code **A6245**
