

Pelvic Support

Maternity Brace

Sports science technology meets mama care.

The Mama Strut Maternity Brace has been clinically proven to reduce pelvic pressure by 70% and reduce sway velocity (increase balance) by 38%.

HOW IT WORKS

- Under belly support lifts to reduce pain and stress
- Back and hip support stabilizes and protects from injury
- Ice and heat gel packs can be inserted for pain and swelling relief at the lower back and perineum
- Under truss straps support the pelvic floor and perineum
- Centers gravity for better balance

MORE ABOUT IT

- Comfy and discreet built in shorts
- Fits under clothes easily
- Machine washable with removable and washable liners
- Classified by the FDA
- Utility patent # 9452100

Mama Strut Maternity Braces support all moms through pregnancy. Our braces can be billed through insurance with code **L8310**.
